

Position – J23-20 Junior Drafter**Position Type** – Full-time, Salary**Salary Range** – 45,000 to 75,000**Availability** – Immediate**Location** – Burnaby**Job Overview**

Westmar Advisors Inc. (Westmar) is a dynamic and growing advisory and engineering company focused on industrial and public infrastructure. We strive for technical excellence and innovation within a culture of professional integrity. Our values are centered on caring for people and encourage diversity, equity, and inclusion across our company. We provide services across all phases of project development and infrastructure type, from local waterfront structures to large capital projects for multinational clients.

We are looking for an engaged and enthusiastic Junior Drafter to join our team. The chosen candidate will be a certified drafter with proficiency in the tools and techniques required for drafting of civil/structural engineering designs and concepts in support of maritime and transportation infrastructure projects. Experience working on projects in the Pacific Northwest and an understanding of industrial facilities is an asset.

Technical Responsibilities

- Under the direction of the drafting manager and/or in collaboration with senior engineering resources, contribute to the drafting of structures and civil works for maritime, civil, and industrial infrastructure. This will range from drafting detailed designs of structural components through to high-level conceptual layouts of entire terminals to support planning and feasibility studies.
- Support the creation of clear, complete, and accurate drawings and drawing packages.
- Assist in the preparation of quantity take-offs in support of capital cost estimates.

Opportunities

- Utilize ArcGIS and associated applications to support engineering and advisory projects.

Requirements

- Drafting diploma or certificate from a recognized post-secondary technical college or institution.
- Canadian residency.
- Proficiency in AutoCAD
- Able to work from the Westmar Burnaby office.

Assets

- Experience with Civil3D, Revit
- Strong interpersonal skills and experience working with existing and potential clients.
- Strong communications skills, including proficiency in technical writing.

We look forward to hearing from you, please send resume with covering letter to careers@westmaradvisors.com.
